WHAT GOES WHERE…?

Every book has a Call Number on a white label on the bottom of the book spine. The Call Number will help you to put the book back on the correct shelf.

CALL NUMBER:

Non-Fiction Book

A non-fiction book is put on the shelf by subject using the Dewey Decimal System.

The non-fiction call number has numbers and letters in it.

994.1
OUR

Our Dewey dividers will help you locate the start point for each shelf and the high frequency topic areas – we have put lots of these on the shelves to help the students learn the Dewey logic and quickly find the general area they are searching for: a bonus for book returns.

Fiction Book

A fiction book is shelved in alphabetical order by the authors’ surname.

The fiction call number starts with F and only has letters in it.

F
MAH

Please group books by the same author together and books in the same series together.

Some books have been grouped together to make it easier for students to find them and we have added spine stickers so they stay together.

SPINE & FRONT COVER STICKER:

Picture Books

Shelved in browser boxes – they are grouped together by the first letter of the authors’ surname.

Note- fiction books in picture book format with content not suitable for lower primary students are on the main fiction shelving. These books do not have the Picture Book sticker on them.
Spinner Sets

These books have the same title but each book is a different story (fiction) or topic (non-fiction).

Shelved in the two tall spinner shelves – each set is grouped together to fill a shelf.

Graphic Novels

These books are shelved together in the graphic novel section in no particular order (crazy we know!).

Lexile Books

Lexile books with a spine label are shelved in the Lexile Area - according to their Lexile number. The shelves have dividers at 50 point intervals and the book is put on the shelf that matches the 50 point range of its Lexile number (e.g. 420L is returned to the shelf 400-450L, 870L is returned to the shelf 850-890L).

FYI- books that have a Lexile are also found on the spinner shelves (books in sets) and main fiction shelving (books in a series – they need to be read in sequential order). They do not have a Lexile spine label… the students are encouraged to check whatever they read.

Class Loan Only

These books are on the non-fiction shelving – according to their Dewey Number and are for library and classroom use only.

Historical Fiction

Some books have spine stickers to identify curriculum topics to teachers.

Japanese Books

Japanese books are shelved in the main fiction and non-fiction.

Sensei Barndon also has a large private collection of books on the trolley (no call number and not covered).
Yellow Box Collection
These books have been grouped together as they are easy reading, they have the same title but each book is a different story (fiction) or topic (non-fiction).

Aboriginal Peoples
These books are shelved in the main collection and are marked with a sticker for easy searching.

Literacy Rich Text
These books are shelved in the main collection and are marked with a sticker for easy searching.

Library Skills Basket
These books are for Teachers only, NOT FOR LOAN. They are to be returned to the basket next to LO desk.

Green Boxes
These are collections with many topics. Each box has a label corresponding to the collection title.

Lexile Young Adult
This Lexile Collection is only to be loaned to Year 6 & 7 students as the content is for young adult.

Parent Corner
These books are for students and parents to borrow. They are to be returned to the correct area.
